Winning Him Back.

[Wall Street News.]

One of the travelers for a new fresh dry goods house recently arrived in a town in the interior of the State to find that one of his best customers was about to transfer his custom to a Boston house.

"Didn't we always do well by you?" asked the New Yorker, as he sat down for an explanation.

"Yes, I believe so."

"Did'nt we ship goods promptly?"

"Yes."

"And did we ever press you in a pinch?"

"No."

"Did you get lower prices at the Boston house?"

"No, I can't say as I did."

"They can't understand why you should leave our house all of a sudden after buying of us for several years."

"I know that some explanation is due, and I will make one," replied the merchant. "You know that I attend church?"

"Yes, and so do I."

"Do you? I didn't know that. I am looked upon as a Christian."

"So am I. I've got the date of my baptism right here in this book!"

"Is that so! Well our church is in need of repairs. We were talking it over the other day when the Boston drummer was in here, and he at once subscribed ten dollars."

"Ten dollars! Why, that's only two kegs of nails! Put me down for thirty dollars cash, a new silk hat for every season, and a full suit of clothes for the minister."

"Do you really mean it?"

"Of course I do, and if that two-cent Christian from Boston dares to sign another five I'll send down a $600 church organ and pay a man $500 a year to play it. We are a house which never makes a great display of gospel hymns and religious tracts, but when a Boston drummer bluffs we show our religious hands and rake in the pot every time."

The merchant will still continue to deal with the New York house.

Eating too much and too fast; swallowing imperfectly masticated food; trying too much fluid at meals; drinking poisonous whisky and other intoxicating drinks; repeatedly using poison as medicines; keeping late hours at night, and sleeping late in the morning; wearing clothing too tight; wearing thin shoes; neglecting to wash the body sufficiently to keep the pores open; exchanging the warm clothes worn in a warm room during the day for costumes and exposure incident to evening parties, compressing the stomach to gratify a vain and foolish passion for dress; keeping up constant excitement; fretting the mind with borrowed troubles; swallowing quack nostrums for every imaginary ill; taking meals at irregular intervals, etc.

At the late meeting of the National Academy of Sciences, in New York, Prof. J. E. Hilgard read a paper on "The Basin of the Gulf of Mexico," in which the theory was stated and endorsed the so-called gulf stream does not flow from the gulf, as represented in physical geographies, but is an equatorial current which comes through the Caribbean sea from the African coast; is turned northeast upon striking the coast of Yucatan; passes through the straits of Yucatan and Florida and out into the Atlantic, without really entering the Gulf of Mexico at all. The currents in the gulf are not connected with this great stream, and are very slow.

A little five year old girl in the city asked father one day last week if it would do any good if she should pray to God to let it rain. She was told perhaps it might, and nothing more was thought of it by her parents till after Sunday evening's shower, when she waked Monday morning she asked her father if he knew what made it rain. He said no, and she replied that it was because she had prayed "last night and the night before." Her mother remarked that she did not pray hard enough, for it rained only a little, when the child answered, "Well, I didn't want to wake up the baby!"

Man is not a bundle carrying animal, although he can tuck a few parcels in his pocket and lug a Christmas sled under his arm. But woman as a common carrier is entirely a success. She has been known to carry parcels enough into a horse car to fill up one side of it, and pick them all up in one arm in getting off at a crossing, while with the other she leads a pair of twins, carries an umbrella and holds up her skirts.

A lady with a fatal squint came once to a fashionable artist for her portrait. He looked at her and she looked at him, and both were embarrassed. He spoke first. "Would your ladyship permit me," he said, "to take the profile? There is a certain shyness about your ladyship's eyes which is as difficult in art as it is fascinating in nature."

A fanatical preacher in Syracuse recently told his congregation that if the women would all dance by themselves in a ten-acre lot, surrounded by a high board fence, and the men in another enclosure of the same kind, there would then be no harm in dancing. Not much fun either.

Railroad accidents have their use in the world, they give thousands of young husbands an excuse for not taking their newly wedded wives upon a bridal tour.

How to Shoe Horses.

Much nonsense is written concerning the proper method of shoeing horses, and much injury is inflicted upon valuable animals through ignorance as well as carelessness in the matter. A practical horseshoer, in discussing this important subject, states in substance, as the result of his own experience, that if the following instructions are followed the job will be satisfactory in every case:

First, I take a good sixteen-inch rasp and rasp down the foot level, watching that the heels are not cut down too low. After the foot is trimmed to the proper shape I use a knife to smooth it, and never cut the braces of the foot, for they are the strength of it, and never use the knife on the frog, for it is the heart of the foot. The frog sheds once in two or three months, when the foot is in healthy condition. The frog is intended for a cushion, and the larger it is the better. When a horse trots he always strikes the heels to the ground first, and if he has a large frog exposed to strike first it will naturally lessen the jar to the leg, and operate to keep the heels well spread. On the other hand, if the frog is cut out, what is left becomes so dry that it cannot be cut with a knife, and the heels shrink together.

After having trimmed the feet, as I have stated, to the proper size, I select a shoe just large enough to cover the foot, and then shape it to fit. Applying it to the hoof, I watch that the hoof is scorched only just enough to show the unevenness of the foot, and then with a rasp or knife smooth true. In this way I never fail to fit a shoe properly. If the shoe is fitted correctly the heels are always well spread out. If the shoes are too long the heels will be drawn together, and the foot being thus pinched it becomes contracted and results in a lame horse.

Next, the shoe should always be concaved on the fore feet. Never put hind shoes on the fore feet. The shoes should bear only on the outer rim of the hoof, and watch that it bears equally all around, and not simply on the toe and heel. If these directions are followed the horse will never be troubled with lameness in the feet, caused by improper shoeing. If the shoe is not left on more than sixty days, bruises or corns cannot form in the hoof.

Now, a word about driving nails. Nails should never be driven high, and then in six or eight weeks the foot will have grown sufficiently to enable the shoer to cut out the old nail holes, leaving sound hoofs. If the nails, however, are driven high, at the next shoeing the hoof will not have grown enough to cut down to the old nail holes, and the water and mud will sink into these old holes, and cause the hoof to become rotten and brittle.—Cultivator.

Some years we had in our employ a man who several times a day ran out of the office to buy a drink of whisky. Every time he went the cashier was instructed to drop ten cents into the drawer to our credit. At the end of seventeen months the man who had gone out so often had drank himself out of a good situation, and the drawer, when opened, was found to contain four hundred and nine dollars, which we loaned to a young mechanic at seven per cent. interest. He used it to purchase a set of tinner's tools. On the 16th of November, 1876, he returned it to us with interest, saying in his letter that he now has a wife, two children, and property worth five thousand dollars. The other fellow is a bummer hunting for food.—Exchange.

A Florida man a few nights ago heard the fowls cackling at a terrible rate in his chicken house. He rushed out and getting into the fowl-house looked about as well as he could in the dark, and, as he thought, saw nothing, so to pay for being fooled out of his bed he concluded he would kill the old cock, and grabbing him off the roost, killed and scalded, and started to pick him, before he had found out that he had killed the biggest kind of an owl.

The wife of the first President Adams, it has been found, was the originator of the woman's suffrage movement. She wrote to her father suggesting that "laws for ladies' suffrage" should de inserted in the first constitution.

Professor Riley says that kerosene or oil of any kind is sure death to insects in all stages, and the only substance with which we may hope to destroy the eggs. Oils will not mix directly with water, but will with milk, fresh or sour, and then may be diluted to any extent.

Without earnestness no man is ever great or does really great things. He may be the cleverest man; he may be brilliant, entertaining, popular, but he will want weight. No soul-moving picture was ever painted that had not in its depths a shadow.

The Detroit Free Press man thinks kissing pretty girls must be frowned down. He'll find it takes a mighty powerful frown to stop it, and we doubt if he won't have to sail in with a club besides, to successfully interrupt the fun.

It is estimated that there are 3,000,000 unmarried men and 4,000,000 unmarried women in the country. It will be seen that if all the men should marry there would be a surplus of a million old maids from which to draw a second wife.

THE CHRONICLE.

BRIDGEPORT, DECEMBER 25, 1880.

SAN FRANCISCO AGENCY.—L. P. Fisher, 21 Merchants' Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

ANOTHER AMENDMENT.—A bill has been introduced in the House, providing for a Constitutional amendment. It provides that all Presidential, State and county elections shall be held on the first Tuesday after the first Monday in November; that State Legislatures shall divide the State into election precincts containing not over 500 electors; each district shall have not less than one free public school, accessible to all children from 5 to 21 years old, without distinction on account of race or color; no State funds shall be appropriated for sectarian schools; no citizen born within the United States who has not attended a public or other school five years, and is unable to read and write, shall vote; the failure of any State in these points shall be deemed a failure to maintain a republican form of government, and Congress may by Act exclude the representatives of such State, and the electoral count of the same, until the required legislation is enacted.—Congress may enforce the amendment by legislation. No such amendment will pass the House, or be indorsed by the required number of States, as it would disfranchise thousands in the Southern States and greatly reduce the Democratic vote in the North.

Senator Booth has introduced a bill in the Senate which provides that in all cases of conflict between town site filings or applications and mining claims, whether lode or placer, the exclusive right to the patent for the land in conflict shall be determined by the priority of claim, provided that it is otherwise in accordance with law. It is to be hoped such a bill will become a law. There is no justice in a custom or law that will allow an irresponsible miner to dig up a man's garden or orchard on the pretense that it is mineral land.

At the urgent request of Representative Page, Commissioner of the General Land Office has instructed all Registers and Receivers to cause all hearings, in cases where parties are distant from Land Offices, to designate the nearest person, authorized to administer oaths, to take testimony.

San Francisco is, "after" Goat Island, and a bill has been introduced in Congress to cede it to that city; but the War Department protests against its passing out of the hands of the Government, and it is hardly likely it will pass into the hands of San Francisco.

A bank blast of 650 kegs of powder was exploded in the English company's gravel claim, at You Bet, on Friday, with good results. The last clean-up of this claim is said to have given a yield of $32,000.

A prominent N. York bank is said to have received subscriptions to the anticipated 3 per cent. Goverment loan to the amount of $200,000,000.

Representative Page has prepared for introduction a resolution making the anniversary of Columbus' discovery of America a national holiday.

The New York Herald surmises that as Garfield and General McDowell are great friends, McDowell will be the former's Secretary of War.

The New York World intimates that J. W. Mackey will permanently settle in New York after he returns from his European tour.

On Monday night last, at San Francisco, Fredericka Drell, aged 65 yeers, was murdered by strangulation. She kept a lodging house.

On Wednesday last ground on the line of the Nevada and Oregon Railroad was broken at Reno. A contract for the first section has been let.

They have been having severe weather in the Eastern States, and in the South, five inches of snow falling at Richmond, Va.

Mrs. Kate Chase Sprague has filed a complaint for divorce against her husband, ex-Governor Sprague, of Rhode Island.

The Placerville Quartz Company, El Dorado county, has struck a bonanza in the shaft on the 600-foot level.

On Tuesday last, at Newark, N. J., a statue of Gen. Phil Kearny was unveiled with imposing ceremonies.

The Russian Government has ordered 12 torpedo cutters at a cost of $50,000 for the fleet in Chinese waters.

Cable roads for Eastern cities, instead of horse, are talked of.

Sunset Cox is seriously ill with congestion of the lungs.

Taxes in San Francisco are promptly paid this year.

The Legislature meets on next Monday week.

The London Times is disgusted with the wars and troubles England has on hand.

The public debt of Canada has increased $9,500,000 during the last fiscal year.

The price of nails has been advanced by the Pittsburg Western Nail Association.

GOOD CITIZENSHIP.

Several influential papers in this State are in favor of giving the privilege of voting only to those who can read and write. This is a good proposition, and it is one that should engage the attention of our legislature. No man should be allowed to enjoy this great boon, if he does not possess sufficient energy and pride to learn to read and write the English language, as there is no excuse for such ignorance in a country possessing such educational institutions as are to be found in nearly every city, town or hamlet in the United States. The man that cannot read and write his ballot is too often made to vote contrary to his wishes by hangers-on around the polls. There is too much voting and too many voters in this country, and we admire the Superior Judge of Nevada county for his good judgment in not granting citizenship to a man that had been in the country eight or ten years, but had not thought enough of its institutions to learn to speak our language. If a man does not think enough of our country to learn its language he should not be allowed to select our rulers, and thwart the wishes of those who are better citizens.

Secession Talk.

The Victoria (B. C.) Colonist is giving its readers some strong secession talk on account of the Canada Pacific Railroad, which enterprise is not being managed in the interest of British Columbia. The Colonist says that the British Columbians are not anxious to secede from the Dominion, but if their interests are disregarded there are other powerful Governments willing to annex it, and if the Home Government does not attend to their wants they will withdraw from the Dominion and seek other affiliations. The Colonist does not mince matters, and perhaps it sees the handwriting on the wall, that British Columbia will eventually fall into Uncle Sam's lap, where it naturally belongs.

The Isabella tunnel, that has been running for the Exchequer ledge at Silver Mountain, Alpine county, has been stopped. Its English owners have expended about $2,000,000 in that district with no good results. With one-quarter of that amount an American company would have made Silver Mountain a bullion-producing district.

The nomination of Woods for Supreme Judge is indorsed by the South. Wood was born in Ohio, but is a resident of Georgia. Objections have been raised, that he is not a Southerner, but as the South is willing to have him on the Bench, why should the North object? To be born in Ohio is a crime in Democratic eyes.

Weaver, the Greenback candidate for President, and Sparks, of Illinois, disgraced themselves a few days ago by having a wordy altercation in the House, and which would have ended in a personal collision had not their friends prevented it.

BRIDGEPORT, DECEMBER 25, 1880.

JOB PRINTING.—Job printing of the finest description will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

CHRISTMAS FESTIVITIES.—Our good people inaugurated the Holiday season by joining in a social dance in the School House last evening. The school room was appropriately decorated with evergreens and flags. The music was excellent, and Captain Porter managed the calling satisfactorily. The attendance was large—in fact the room was uncomfortably filled, some twelve sets doing the mazy, with the usual wall-flower admirers in the background; but notwithstanding the crowd all went in for a good time, and had it. At midnight supper was served at the Leavitt House. After supper dancing was resumed and continued till 4 o'clock this morning. To-night another dance will be given in the School House, and the attendance will undoubtedly be as great as last night's, for our young folks—and old one's too, for that matter, do enjoy a good dance.

Although we had no public Christmas Tree here Santa Claus was not forgetful of his Bridgeport friends—particularly of the children.

Our hotels will give their usual turkey dinners this afternoon, and that national bird will grace many a private table to-day.

PAY YOUR TAXES.—State and county taxes must be paid to the Sheriff at his office before 6 o'clock on Monday evening next—27th—at which time they will become delinquent, when five per cent. will be added and accruing costs will be added in regular order; so pay up and save costs. Under Sheriff Massey is in constant attendance to receipt for taxes.

THE WEATHER.—The weather this week has been everything but pleasant—snow squalls alternating with wind and sunshine. Last night we had a light fall of snow; and to-day is warm, but cloudy, and the snow is rapidly melting and putting an end to the sleighing in town.

THE BODIE HOUSE.—We call the attention of our readers to the advertisement of the Bodie House, kept by W. A. Johnson, the pioneer hotel keeper of Bodie. It is a quiet, well kept house, and Mr. Johoson has reduced his rates for board and lodging to $10 a week.

THANKS.—We thank our old friends, W. A. Johnson and wife, of the Bodie House, for their kind invitation to partake of their Christmas turkey, and regret that we cannot be with them—the first time in many years that we have not had that pleasure.

BOARD OF HEALTH.—The Board of Supervisors yesterday appointed Doctors Deal and Stevenson as members of the Bodie Board of Health, with power to establish a pest-house—if needed.

NEW OFFICE.—Having removed our press and balance of material from Bodie, and taken possession of our new office, corner of Bryant and School streets, we will be happy to see our friends at all times.

SUPPLIES.—The County Clerk has been directed to advertise for sealed proposals to furnish county supplies, etc. Proposals are to be opened at the February meeting of the Board of Supervisors.

THROWN.—At ten o'clock this morning George Bingham was thrown from his horse, by the breaking of the stirrup strap, and badly cut over the right eye.

GRAND BALL.—A grand ball is to be given in the Superior Court Rooms of the new Court House, upon its completion, in the early part of February.

APOLOGY.—Arranging our office, consequent upon removal from Bodie, prevented our issuing a more readable paper this week.

CONSTABLE.—The Board of Supervisors appointed J. F. Kirgan, of Bodie, Constable, vice Harrington resigned.

MERRY CHRISTMAS.—We wish our readers a Merry Christmas.

A good story comes from Madison, Wis. A young man of that city, who, either through snobbery or laziness, will never carry a package through the street, made a purchase the other day of six collars and necktie, and, as usual, ordered them delivered at his residence. Soon after a two horse freight wagon was backed up to the door, and the package laboriously placed on the steps by the driver and assistant, who inquired whether it should be left in the hall or carried up stairs. As young man's sweetheart was a witness of the scene, it is likely that she appreciated the full force of the joke.

When old Mrs. Jumby had got through reading in the paper an account of the last fire she turned her spectacles from her eyes to the top of head and remarked: "If the city firemen would wear the generwine hum knit stockin, such as we make and wear in the country, they would not be a bustin' their hoss at every fire."

NEW YEAR'S PRESENTS.—L. Hollander, the popular jeweler of Bodie, has one of the best selected stocks of jewelry to be found on this side of the mountains. His stock of watches is complete, and every taste and purse can be gratified at Hollanders. Those desiring to make an appropriate New Year's or birthday present can be suited by calling and examining his stock.

DENTISTRY.—Dr. Preshaw, who has entered upon his fourth year residence in Bodie, and can be found at his new rooms, Standard Building, next door to the telegraph office, does everything in the line of dentistry skillfully and promptly. We commend him to the public.

INFORMATION FILED.—District Attorney Parker has filed an information charging Job Draper with murder in the first degree.

It is the man with only one suit of clothes and a small salary, my son, who has to be polite and agreeable and a rigid, faultless observer of the strictest points and forms of etiquette. The man worth $50,000 may tramp on your corns, walk across your wife's train, and eat pie with his knife, and it's all right; his standing in society isn't affected by it. But you—don't you, on your present salary, attempt to drink soup out of the side of your plate if you want to marry an heiress. You can't afford to act that way just yet.
